

Mechanical Engineering | Robotics Enthusiast | Corporate Finance

Kieran Huynh

Experience

October 2025 – Present

Finance Administrator *Lonsec Research Pty Ltd*

Investment Service Firm for investment research, superannuation and fund ratings

- Identified integration issues between Salesforce, Workday, and iRate following Lonsec's transition from MYOB to Workday; proposed a **\$40,000 Phase 1 enhancement project** to the CTO and CFO, which was approved and delivered with a project manager and software engineering team. Focused on contract-to-invoice logic and client-information API flows.
- Responsible for decreasing client debts, and providing frequent reports to the different product groups, set up an automated system to chase up payments replacing the previous manual role.
- Managed **accounts receivable and payable** across Lonsec's product groups and cost centers including invoicing, supplier payments, BAS payments, employee expense approvals, and payment processing via NAB Business and CBA CommBiz
- **Prepare audit evidence** for accounts receivable and legal contracts, maintaining accurate financial records and compliance.

Skills: Excel, Workday, MYOB, Salesforce, SAP Concur, Jira, Lightyear

November 2024 – October 2025

Office Manager - Finance *KBH Migration Pty Ltd*

Australian Migration Agency

- Prepared 150+ contracts for major international organisations and managed contract administration, records, deadlines, and client documentation.
- Coordinated health-insurance partnerships with Medibank, Allianz, and NIB, creating an additional commission-based revenue stream.
- Managed recruitment, onboarding, staff training, and prospective-client consultations.
- Managed end-to-end accounts payable and receivable in Xero, including invoicing, payment follow-up, expense processing, and bank reconciliations.
- Administered payroll and superannuation, liaising with an external accountant on BAS and tax obligations.

March 2025 – Current

External Affairs Director – External Affairs Officer *Sydney University Engineering Undergraduate Association*

Professional Engagement, Networking and Recruitment Society

- Since starting the role of External Affairs Director, the annual revenue from sponsorship streams have **increased from \$2,400 to \$10,650**
- Lead a team of 5 to coordinated with industry partners, faculty and other student societies to promote student engagement with events targeted at increasing sponsoring companies' visibility, recruitment opportunities.
- Founded a speaker series averaging 200 attendees per seminar for JP Morgan, WSP, Resmed, Microsoft and for sponsoring companies.
- Managed relationships with existing sponsors: ARUP, Boston Consulting Group, Jane Street, Tetra Tech, RPS, NDY, Coffey, EY Parthenon Strategy
- Created new relationships with: JP Morgan, WSP, QANTAS, Microsoft, Optus, Breaker Industries, CrumML and HEO through outreach and networking with industry contacts.

November 2023 – December 2023

Intern *Tricycle Developments Pty Ltd*

Industrial design and engineering group

- Was part of a six-person design team during the testing and development of an advanced childhood epilepsy detection and monitoring device.
- Attended client meetings to gather requirements and provide project updates as well as company meetings to coordinate resources and ensure projects across the company were on schedule.
- Produced CAD models for the device housing, used in the prototyping process.

Education

Feb 2025 - Current

Bachelor of Mechanical Engineering (Honors) and Commerce

The University of Sydney

- WAM 83
- Distinction Average
- Dalyell Scholar

Feb 2019 – Nov 2024

High School Certificate

Sydney Grammar School

- School Prefect
- 2nd HSC Design and Technology
- Shape Nomination
- ATAR - 98.9
- Music Committee
- Headmasters Award for Special Contribution to the school

Skills

CAD:

- OnShape
- SolidWorks
- Fusion360

Accounting:

- Excel
- Salesforce
- Workday
- Jira
- Xero
- MYOB

Interests

Designing and building projects around the home to automate or innovate from hydroponic planters to robotic arms.
